"How are you doing?" It is the common question we ask others we have not seen in a while. The common reply is, "Good, how are you?" The conversation usually does not take a deep dive into what is really going on. So, in my view, here is the answer to how we are doing on the Eventide Campus.

For starters, the Eventide Campus is truly filled with great team members. They are the biggest asset to our organization and always will be. This team is working hard to meet the needs of those we serve, and I am proud of their dedication, hard work, heart, and positive attitudes. Retention and recruitment of quality team members is one of our pressing challenges right now. And we are not alone.

A recent press release by the American Healthcare Association shows a survey they conducted revealed 99% of nursing homes and 96% of assisted living facilities in the US are facing a staffing shortage. A LeadingAge article released today recounts their survey results where several respondents need to hire at least 50% more staff to become fully staffed. This survey also reports 25% had challenges causing them to shut down households or buildings. I have spoken to several healthcare professionals around the area, around the State of Iowa, and around the Nation with severe workforce shortages. Google the words 'healthcare workforce shortage' and you will see hundreds of recent posts about how serious this is. Frankly, and how serious it is yet to be.

I know many businesses are experiencing workforce challenges. We have experienced the effects on those who serve us. From the local restaurant with reduced hours, to the longer waits of customer service with other businesses. Our construction project on Campus has faced delay while awaiting a variety of products to arrive. Many hospitals do not have the staffing or resources to utilize all their beds. The Centers for Medicare and Medicaid Services (CMS) website tracks many COVID related statistics including hospital bed availability. However, they do not track staffed beds available which is a completely different number than what they are showing on the website.

My focus here is to explain how this workforce challenge affects those Eventide serves. For one, our nursing facility may not be able to take a new admission if staffing levels remain low. We want to keep our staff to resident ratios in line with providing quality care. As of today, we have a waiting list at the nursing facility. This list changes daily, but our nursing facility

has turned down many more referrals this year than we have admitted due to staffing limitations. If you or a loved one are anticipating a move to our nursing facility, or any other facility, you may want to plan ahead. I encourage you to call the facility and discuss the situation with the admissions team.

The other admission factor in nursing facilities is if a resident is not fully vaccinated, the resident will basically need 1-1 care for the first 14 days for the quarantine period. Until this guidance changes, many nursing facilities may not be able to provide 1-1 care, and therefore may decline the referral. I mention this not as a mandate for admission, but simply to create awareness that admitting a new unvaccinated resident can be difficult until the guidance changes (or staffing levels increase).

As of today, Silveridge Assisted Living, Heritage Heights and Realife are currently accepting new tenants. All these buildings are part of the Eventide Campus. Those living on Campus may be placed on a priority list for admissions to the nursing facility (Eventide).

It seems having workforce challenges is a topic leadership does not want to publicly speak about. I feel it is important for others to understand our challenges so we can meet the expectations of those we serve. Some will blame the pandemic; it certainly did not make things any easier. The pandemic with all its new regulations is something that has not gone away in our industry, but rather keeps growing month by month. Some will blame the vaccine mandates as individuals choose another career. Some will blame government for policies implemented or even for lack of implementation in other areas. Some will blame leadership within that company for not offering better resources to their employees. All the above need to continue to make adjustments to overcome with workforce challenges.

Our team is ready to serve and will do so in the best way we can. We need investment strategies from policymakers with 'The Care For Our Seniors Act' to provide necessary and stable financial support. We will continue to advocate for changes with our policymakers. Our team needs verbal support from our community and positive words of encouragement. Our leadership continues to adjust benefits offered to employees as we strive to retain and recruit great team members. Our leadership is committed to the future and that shows with the reinvestment of funds back towards the campus...to our employees, facilities, and services.

Medicare Open Enrollment for 2022

Medicare open enrollment - also known as Medicare's annual election period - runs from October 15 through December 7 each year. During this annual window, Medicare plan enrollees can reevaluate their coverage - whether it's Original Medicare with supplemental drug coverage, or Medicare Advantage - and make changes or purchase new policies if they want to do so.

During the Medicare open enrollment period, you can:

- Switch from Original Medicare to Medicare Advantage (as long as you're enrolled in both Medicare Part A and Part B, and you live in the Medicare Advantage plan's service area).
- Switch from Medicare Advantage to Original Medicare (plus a Medicare Part D plan, and possibly a Medigap plan).
- Switch from one Medicare Advantage plan to another.
- Switch from one Medicare Part D prescription drug plan to another.

- Enroll in a Medicare Part D plan if you didn't enroll when you were first eligible for Medicare. If you haven't maintained other creditable coverage, a late-enrollment penalty may apply.

Prior to 2021, patients with end-stage renal disease were unable to enroll in Medicare Advantage plans unless there was a Medicare Special Needs plan available in their area for ESRD patients. But that changed as of 2021, under the terms of the 21st Century Cures Act. People with ESRD gained the option to enroll in Medicare Advantage as of 2021. This can be particularly advantageous for beneficiaries with ESRD who are under age 65 and living in states that don't guarantee access to Medigap plans for people under the age of 65.

For those in the nursing home utilizing therapy, our experience shows advantage plans may not provide as good of coverage as original Medicare. For assistance, please call 712.265.2509 to talk to the local SHIIP (Seniors' Health Insurance Information Program) Counselor.

Sweet, Sweet Corn!

Thank you to the Bryan Family for donating sweet corn for our residents yet again! When the sweet corn arrives, there is no shortage of smiles, storytelling, and of course butter.

Happy Fall Everyone!

Submitted by Robin Schiltz,
Eventide Activity Director

It is amazing how fast time flies! In no time at all, we will be moving into the new building! It is time to clean out closets, pack away that summer clothes, and break out the cold weather apparel. Visitors are allowed to visit their loved ones in the nursing facility, following our visitation guidelines that may change day to day. It is best to call before you come to visit. This fall will be a great time to schedule a visit to spend time with your loved one to sort through their possessions to decide what is no longer wanted or needed in preparation for the big move.

Upon the move, the Activities Department will experience some changes. The Activity Center is a large beautiful room with lots of natural light! It has an enclosed chapel, which will enable us to feel more like we are in church, than in a dining room. We will also be leading small group activities in each of the households, and training staff to carry on personalized activities that can happen at any given moment!

I am currently looking for volunteers who would be willing to spend a few hours here and there, helping with whatever is needed, after we move. It could be spending 1:1 time with a Resident, reading them a story or playing checkers, assisting the Activities Team with crafts or other household activities, answering the door and escorting visitors, answering the phone on weekends, etc.

If you are interested, or know of anyone who may be a great fit to our Eventide family, please feel free to reach out to me. I will get the list started, so I can set up training dates, and paperwork shortly after our big move! Robin Schiltz, 712-263-3114, ext. 239. My email address is rschiltz@eventidehome.com.

Sending a huge thank you to everyone in the community for your support, donations, kind words, and assistance. We could not do it without you!

Out with the Old, In with the New!

With Silveridge having opened nearly 11 years ago, updates are beginning to occur.

As apartment occupancy changes, we are taking the opportunity to update carpet, paint and flooring in order to make them look new again. Our laundry rooms have recently received a makeover, giving them a much more home-like feel. The back patio now has a beautiful pergola positioned overhead so tenants can enjoy being outdoors in a comfortable space. We are currently looking to update our activity room in order to add some life enrichment games and create a fun space for tenants to further enjoy. We are continually looking for creative ways to improve life for our

tenants here at Silveridge as we believe "if we are not moving forward, we are falling behind".

The feedback we have received on the improvements so far, from both tenants and families, has been phenomenal. Some of these updates are made possible by the Eventide Foundation as well as private donors and we are extremely grateful for the amenities we've been able to add to Silveridge.

Silveridge currently has limited apartment openings. If you would like to explore assisted living, see our updates or check out our available apartments in anticipation for the colder months ahead, give us a call and we would be happy to show you around!

Construction on the new nursing facility is rapidly taking shape. The households are in process of having flooring, lights, and cabinetry installed. The landscaping is taking shape, exterior siding and stonework is being installed. Concrete has been poured with just a few areas remaining. We have seen a delay in some materials that have caused us to push back moving day to early in 2022.

Alzheimer's Caregiver Support Group is Back

The Alzheimer's Caregivers Support Group started again in August. Meetings will be the first Tuesday of each month, at 1:30pm in the Heritage Heights Community Room located at 118 South 20th Street in Denison! The support group will continue on the 1st Tuesday of each month. Join us for a gathering of caregivers, family and friends of persons with Alzheimer's who meet to discuss issues related to Alzheimer's disease. We exchange practical

information, problems, and solutions to the day-to-day struggles of caregiving. We work through feelings experienced while being a caregiver. Eventide acknowledges that caring for your loved ones with Alzheimer's can be hard and we want you know to know you're not alone. Everyone is welcome! If you would like to be included in the reminder mailing, or notified of meeting changes, please call Lynette Croghan at (712) 263-3114, ext. 228.

Go Monarchs!

Eventide Activity Coordinator, Robin, and Resident, Lone, were able to ride in the Homecoming Parade in style. Donned in purple and yellow, the ladies tossed out candy while cruising in a Chevy Camaro.

Eventide Resident Phone Line

The resident phone is available to for residents and family or friends to use to talk with one another, and we love that it gets used so frequently! Unfortunately, there have been complaints lately that the resident phone is not being answered in a timely manner. It would be most beneficial to the resident and person calling to avoid calls during meal times. The nurses are responsible for answering this phone for the most part, and they are usually not at their desk around meal times, nor are the residents available. Best times to call are 9:00am - 11:30am; 1:30pm - 4:30pm and 6:00pm - 9:00pm.

Reunited After Thirty Six Years

men he used to work with at the DOT and after reminiscing over the time they had all spent together, he began tracking them down. Sadly only 3 individuals in the photo remain living, Marley and Jeff being two of them. Jeff utilized Facebook to search for Marley, eventually coming across a man he thought could be Marley's son. He reached out to him, and sure enough, it was! With Marley and his son's blessing, Jeff traveled to Denison and reconnected with Marley at Silverridge after 36 years. They reminisced about their time working together and caught up on life to date. Jeff even brought Marley a replica of the patrol car he used to drive back then.

The reunion was such a happy one. Jeff hopes to routinely visit Marley, and they are so happy to have reconnected.

Pictured above is Silverridge tenant Marley Hansen and Jeff Franzen. Jeff and Marley used to work as patrolmen for the Iowa Department of Transportation, and worked together from 1978-1985 working vehicle enforcement along Interstate 80. During that time Marley was a part of the largest seizure of narcotics in Iowa yet to date, having apprehended 10,500lbs of marijuana in a single traffic stop. The marijuana was said to have street value of 'millions of dollars' even back then, and was packaged in 50lb bales. It was something for the record books.

The duo parted ways in 1985 due to their positions taking them elsewhere and hadn't spoken or seen each other since.

Earlier this year, Jeff happened to come across an old photo of the

DONATIONS

EVENTIDE FOUNDATION

The Eventide Foundation is a non-profit, tax exempt charitable corporation formed to collect gifts of money and assets to help off-set the expenses of caring for the elderly. Funds collected by the Foundation are used to supplement the increasing costs of personal care and to provide amenities to residents that would not otherwise be available. As you plan your estate and gift endowments, we ask that you consider a gift to the Eventide Foundation. A contribution to the Foundation allows us to provide a fuller quality of life to our residents. The Foundation needs your help to continue the work of Eventide and to ensure that each of the residents can live out their life without loss of dignity or respect. We sincerely appreciate all the gifts that have been designated to the Eventide Foundation! The following list reflects gifts received during the period of June 26, 2021 through September 24, 2021. In publishing a list of so many names, it is possible that we may have misspelled, omitted or otherwise listed your name incorrectly.
